FAQ

[Flowcode V5 Crack Serial Free](#)

The screenshot displays the Flowcode V5 software interface. The main workspace contains a flowchart starting with a 'BEGIN' block, followed by a 'Loop' block containing a 'While 1' loop. Inside the loop, there are two input blocks: 'D5 -> FirSensor' and 'D6 -> SecSensor'. A decision block 'If FirSensor?' follows. The 'Yes' branch leads to another decision 'If SecSensor?'. The 'Yes' branch of this second decision leads to an 'Output' block '0x03 -> PORT B'. The 'No' branch of 'If FirSensor?' leads to a decision 'If SecSensor?'. The 'Yes' branch of this decision leads to an 'Output' block '0x14 -> PORT B'. The 'No' branch leads to an 'Output' block '0x17 -> PORT B'. The flowchart ends with an 'END' block.

Two panels are visible at the bottom right:

Variable	Type	Value
FIRSENSOR	BYTE	0 (0x0)
SECSSENSOR	BYTE	1 (0x1)

Macro Calls
Main

The 'Variables' panel shows the current state of the sensors. The 'Call Stack' panel shows the current macro call is 'Main'. A 'LEDs (D)' panel at the top right shows seven LEDs labeled B7 through B0, all of which are currently lit (green).

The software interface includes a menu bar (File, Edit, View, Macro, Run, Chip, Window, Help), a toolbar with various icons, and a status bar at the bottom with the text 'For Help, press F1', 'Current zoom = 75%', and 'NUM'. The system tray shows the time as 5:38 PM on 7/7/2012. A logo for 'MLEE'S ROBOTRONICS' is located in the bottom right corner of the workspace.
